Experience the real flow of Africa

MODUS OPERANDI

SEMI-PARTICIPATORY SAFARIS

GENERAL INFORMATION

- Explorer Canoe Safaris are semi-participatory – meaning camps are not already set up for your arrival and that everyone helps.
- To put up tents each evening. Tents supplied are very easy to set up, two-man, dome tents.
- These safaris are self-contained – meaning all equipment and food is carried in the canoes and there is no vehicle back up.
- We take a minimum of 2 and a maximum of 8 people (special arrangements can be made for larger groups upon request).
- Our minimum age limit for canoe safaris is 14 years – there is no maximum age limit, but sound judgement should be used.
- No previous canoeing experience is necessary, but guests are required to be reasonably fit and healthy.
- The maximum luggage limit per client to take on the river is 10 kgs. A luggage room and safe facilities are provided for any extra luggage at the Kariba office.
- Animals seen on the trip usually include elephant, buffalo, impala, waterbuck, hippo, crocodile, and plentiful birdlife. Lions, leopards, painted hunting dog etc. are more rarely seen but are certainly in the area. We cannot guarantee plenty of game while on safari, particularly during the green (rainy) season.

Our semi-participatory Explorer Canoe Safari options begin and end in Kariba (unless by other arrangement) and we recommend clients spend the night prior to their safari's departure in Kariba town. We can assist with booking this accommodation. Safaris depart from our offices in Kariba, clients can self-drive there or, be picked up by us from their various hotels at 7:30am. Once at the office, clients may arrange for excess luggage and valuables to be locked away safely until their return. (We do not recommend taking passports or valuables on the river). A short briefing will then be given to help clients understand what the trip entails and any questions will be answered.

A shopping trip follows to allow the purchase of any additional groceries or personal items required, as well to purchase particular drinks clients may want. Clients will then be driven to the starting point of their safari.

DAILY ROUTINE

Generally, the day starts with tea/coffee and biscuits at sunrise. Camp is then packed up and the party sets off. Early mornings make for easy paddling as the wind is calm and it is not yet too hot. A stop will be made for breakfast, usually after a couple of hours. The trip continues after breakfast, until breaking for a light lunch and siesta to avoid the midday heat. The night stop is reached at approximately 5pm and the camp is unpacked and set up. Campsites are typically set up on islands and all sites are designated by National Parks.

ABLUTIONS

There are no ablution facilities on these safaris. Clients are provided with a spade, toilet paper and matches - with which to burn the toilet paper. Bathing is done from a bucket using water scooped out of the river.

BACK-UP STATUS

Explorer Safaris are self-contained. All equipment and food is carried in the canoes and there is no vehicle back-up apart from drop-off and pick-up. As these safaris are semi-participatory, clients are required to help setup tents and to assist the guide with the cooking and washing up.

are provided on the safari. Long safaris such as the Zambezi Classic Long are re-supplied in either Chirundu or Mana Pools.

Clients will be able to purchase these before the trip when shopping prior to departure - if you feel that you will require more than the allocated mineral water per person per day, you are also able to purchase extra at the same time.
